FOR IMMEDIATE RELEASE

(JACKSON, Michigan) – Family Service & Children's Aid recently received a grant in the amount of \$60,000 from The Jackson County Community Foundation. This grant was awarded through the Robert A., Sr. and Annetta Martin Memorial Fund, which is a component fund of the Foundation.

The grant monies will be used to fund Agency Operations. “The grant from The Jackson County Community Foundation will allow us to continue to serve the citizens of Jackson County with quality mental health counseling and substance abuse treatment.” said Judith Jove, Executive Director of Family Service & Children's Aid. “We are thrilled that in this time of shrinking government resources, the Jackson County Community Foundation has chosen to invest in the emotional health of Jackson residents with their offering of financial support and trust in FSCA.”

Family Service & Children's Aid has served the Jackson community since 1944, and it primarily specializes in strengthening the emotional health and functioning of children, adults and families through counseling, education, child welfare, advocacy and program development. Each year the programs and services of FSCA reach approximately 20,000 individuals in Jackson County. To learn more about Family Service & Children's Aid, please contact us at (517) 787-7920.
